The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Office Action Summary

Application/Control Number: 10/624,476

Art Unit: 1772

DETAILED ACTION

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 14-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arakawa et al. (U.S. 2003/0164243 A1) in view of Yoshida et al. (U.S. 6,621,003 B2).

Arakawa et al. teach a transparent substrate joined by an adhesive to a metal layer, which is etched to form a transparent EMR shield, which can be used on a plasma screen. The transparent substrate maybe polyester (PET) or cellulose (TCA) and protective release film layers can be laminated to both the metal mesh layer and the reverse side of the transparent substrate (abstract, section 0039, section 0078). Yoshida et al. teach the use of a hot melt adhesive film, which may be used in combination with a pressure sensitive adhesive to join a metal mesh to a transparent substrate by pressing the metal mesh

Application/Control Number: 10/624,476

into the adhesive film. The pressure sensitive adhesive being used to form an initial bond that allows proper positioning between the hot melt adhesive film and the layers to be joined (abstract, Figure 1, col. 4, lines 15-30, col. 9, line 60 through col. 11, lines 55). Other films may be joined to both the transparent substrate and the metal mesh layer by the use of pressure sensitive adhesives (col. 11, lines 3-45). The instant invention claims a metal mesh layer joined to a transparent substrate and pressure sensitive adhesive being used to join mold release or protective layers to the outer surface of the metal mesh and the bottom of the transparent substrate. would have been obvious to one of ordinary skill in the art to have used a pressure sensitive adhesive of appropriate bond strength in order to join the protective layers to outer surfaces of the metal mesh and transparent substrate layers of Arakawa et al. because of the teachings of Yoshida et al. that PSA adhesives are useful to bond additional layers to metal grid and substrate laminates.

3. Applicant's arguments filed 15 March 2005 have been fully considered but they are not persuasive.

Art Unit: 1772

Applicant argues that the combination of the references does not teach outer PSA layers as has been more clearly claimed in the newly presented claims. The prior rejection has been modified above to more clearly bring out the teachings that address these limitations in response to applicant's new claim language.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1772

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Watkins III whose telephone number is 571-272-1503. The examiner works an increased flex time schedule, but can normally be reached Monday through Friday, 11:30 A.M. through 8:00 P.M. Eastern Time. The examiner returns all calls within one business day unless an extended absence is noted on his voice mail greeting.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR of Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
